How to donate via Payroll Giving

Payroll Giving

Donating through your monthly salary is an easy tax efficient way to make regular donations, so it costs you less to give more.

You decide what amount you would like to give each month and the donation will be shown on your payslip – it's deducted before tax meaning that if you are a basic rate tax payer, a monthly donation of £5 will only cost you £4, or just £3 as a higher rate tax payer!

Ask your employer if they run a Payroll Giving scheme or simply visit our website and click on the link to payroll giving and fill out our form.
